

# The complete social robotics lab for businesses

**No matter what sector you are in or what kind of business you are, our social robotics lab will help you explore how you can transform your business for the future with innovative robot automations that feel human.**

# What we offer

# Complete social robotics lab

\$21,100

1 Furhat robot

1 Misty robot

Full technical support to get you started with your lab\*

A complete social robotics lab is an opportunity to explore how social robots can enhance your business. It gives you the ability to employ the full capabilities of the most advanced social robots on the market for your specific needs.

We will help you every step of the way, from ideation to development and implementation so that robots can become a successful part of your business or project.

*\*Includes two half-days of one-on-one onboarding and coaching*

# Misty

# Learn how Misty is revolutionising education

The Misty robot's mobility expands the potential of what you can develop for your business. Within the field of education, Misty is already breaking new ground and has the potential for so much more.

Designed to fit the requirements of international curricula, Misty is helping children and adults alike learn about robotics and programming, as well as conduct research, find information and study for examinations of any kind.

Misty's friendly appearance, fun personality and intelligence make it the ideal learning companion for students of all kinds.

## St. Vrain Valley Schools

Discover how Misty was integrated to the special education department to help engage students with disabilities and special needs.
